

Use the enmacc platform
to register trades with
OMIP (OMIClear) for
the purpose of clearing

How can you benefit?

- Negotiate bilateral trades and give up the trade for clearing on enmacc **without requiring open credit lines** or framework contracts from individual counterparties
- Give up the trade for clearing with no more dependency on intermediaries, and with **no extra workload** for your back office
- Trade cleared, with the option to stay **anonymous** throughout the trading process

To benefit **immediately**

You need to be **direct or indirect member of OMIP (OMIClear)**

Process of **clearing** on enmacc platform

Once a trade is complete, **we will register it** on your behalf with OMIP. At all times, the clearing status of the deal will be **visible on the platform**.

We are **registered**
with OMIP as brokers
(non-trading brokers)

NO additional fees for
cleared trades on
enmacc

Standard clearing fees charged by
exchanges / clearing houses remain
(subject to individual arrangements)
