

GoOs on entender, our request-for-quote platform

Overview

Users can trade guarantees of origin (GoOs) on our RFQ platform, entender. This technology lets you send GoO requests to multiple counterparties, easily and securely. You can then compare all prices on one screen, and save valuable time in the trading process.

Why trade GoOs on enmacc?

- ***Combine technologies and countries:*** Trade certificates of any technology, from any combination of AIB member countries.
- ***Liquidity providers:*** Continuously grow your GoO trading network to include new counterparties, like our GoO liquidity providers.
- ***Trading flexibility:*** Trade specific maturities (calendar years, quarters, months) and define delivery, payment dates, and subsidised certificates.

Coming soon

GoO profiles: With these, you'll have the unique flexibility to trade specific delivery timelines.

Trading fee

Following a successful trade, enmacc will charge both parties a fee based on the MWh traded.
